1 What Is Message Center?

Message Center is a service platform that aims to build a better connection with you. Message Center makes it easier for you to receive a wide range of notification messages in a timely manner and manage messages to protect you against losses caused by missing messages.

2 Main Functions

Message Center consists of the following modules:

- **My Messages:** You can sort and view messages by category or type.
- **SMS & Email Settings:** You can configure how the messages are received (via email, SMS message, system notification, WeCom, DingTalk, or Feishu) and who will receive these messages as needed.
- **Recipient Management:** You can add or delete recipients, modify recipient information, and manage the types of messages subscribed by recipients.

3 Accessing Message Center

You can access Message Center by one of the following methods:

1. Log in to the [management console](#).
2. Click  in the upper right corner.
