1 What's New

The following describe the features released in each Anti-DDoS version and the corresponding documentation updates. New features will be successively launched in each region.

October 2022

No.	Feature	Description	Phase	Document
1	Anti-DDoS	<p>This issue is the first official release.</p> <p>The Anti-DDoS service protects public IP addresses against layer-4 to layer-7 distributed denial of service (DDoS) attacks and sends alarms immediately when detecting an attack. In addition, Anti-DDoS improves the utilization of bandwidth and ensures the stable running of users' services.</p>	Commercial use	What Is Anti-DDoS?
