1 What's New

The following tables describe the features released in each DDS version and corresponding documentation updates. New features will be successively launched.

September 2022

No.	Feature	Description	Phase	Document
1	Document Database Service (DDS) is rolled out.	DDS is a MongoDB-compatible database service that is secure, highly available, reliable, scalable, and easy to use. It provides DB instance creation, scaling, redundancy, backup, restoration, monitoring, and alarm reporting functions with just a few clicks on the DDS console.	Commercial use	Documentation
