Data Security Center
Latest features and updates

November 2023

No.	Feature/Update	Description	Phase	Document
1	First official release	Data Security Center (DSC) is a latest-generation cloud data security management platform that protects your data assets by leveraging its data protection capabilities such as data classification, risk identification, data masking, and watermark-based source tracking. Asset Map gives you an insight into the security status of each stage in data security lifecycle and provides constant visibility of the security status of your data assets.	Commercial use	What Is DSC?
