1 What's New

The following table describes the features released in each Resource Access Manager (RAM) version and corresponding documentation updates.

April 2025

No.	Feature	Description	Phase	Related Documents
1	Sharing resources	Resource owners can share specified resources with specified entities (including organizations, organizational units, and accounts), and also update or delete resource shares at any time. They can view the information about the shared resources and the principals associated with the resource shares.	OBT	**Sharing Your Resources**
2	Using shared resources	Principals can accept or reject resource sharing invitations, and leave resource shares after the sharing ends. They can also view the information about the shared resources and resource owners.	OBT	**Using Shared Resources**

No.	Feature	Description	Phase	Related Documents
3	Sharing with Organizations	When RAM has become a trusted service for Organizations, resource owners can share specified resources with an organization or organizational units.	OBT	**Enabling Sharing with Organizations**
4	Viewing the RAM permissions library	You can view details about all RAM permissions available for different resource types in the RAM permissions library.	OBT	**Viewing the RAM Permissions Library**
