# 1 What's New

Web Application Firewall
Latest features and updates

### February 2024

No.	Feature	Description	Phase	Document
1	Dedicated WAF mode available	If your service servers are deployed on Huawei Cloud, you can use dedicated WAF instances to protect your website services as long as your website has domain names or IP addresses.	Comm ercial use	Adding a Website to WAF (Dedicated Mode)

## September 2022

No.	Feature	Description	Phase	Document
1	This issue is the first official release.	Web Application Firewall (WAF) keeps web services stable and secure. It examines all HTTP and HTTPS requests to detect and block the following attacks: Structured Query Language (SQL) injection, cross-site scripting (XSS), web shells, command and code injections, file inclusion, sensitive file access, third-party vulnerability exploits, Challenge Collapsar (CC) attacks, malicious crawlers, and cross-site request forgery (CSRF).	Comm ercial use	Web Application Firewall
