# 1 [Notice] Huawei Cloud ModelArts Has Discontinued the Old Version of Training Management

---

The end of life (EOL) date for the old version of Huawei Cloud ModelArts training management is June 30, 2023, 00:00 GMT+08:00.

## Affected Regions

All Huawei Cloud regions

## Impacts

After the version is discontinued, you cannot use this version to manage training jobs, training parameters, and visualization jobs. You are advised to switch your jobs to the new version.

If you have any questions or suggestions, please submit a service ticket or call us at +86-4000-955-988 or +86-950-808.

## FAQs

### Why Did ModelArts Discontinue the Old-Version Training Management?

ModelArts old-version training no longer satisfies the evolving development needs. The service team has developed and released an updated version of training in 2021. This new version addresses past challenges, offers a high-performance, user-friendly, scalable, and adaptable foundation for future enhancements, and ensures an efficient and accessible AI training experience.

### Does the Offline of the Old-Version Training Management Affect Your Use of the Service?

The training jobs in use are not affected, but you cannot use the old-version training to create jobs.

### Can I Still Purchase the Old-Version Training?

No. The EOL date for the old version of training management is June 30, 2023, 00:00 GMT+08:00.

## **How Do I Upgrade the Old-Version Training to the New Version?**

Refer to [Model Development](#).

## **What Are the Precautions for Switching Training Jobs from the Old Version to the New Version?**

The following lists three differences between the new version and the old version. For details, see [What Are the Precautions for Switching Training Jobs from the Old Version to the New Version?](#)

- Differences in training job creation
- Differences in training code adaptation
- Differences in built-in training engines
