Contents

1 Enabling OA.....	1
2 Using Automatic Check.....	2
3 Viewing Historical Records.....	3
4 Downloading a Report.....	4
5 Updating the Check Result of a Single Check Item.....	5
6 Disabling the Service.....	6

1 Enabling OA

Before enabling OA, register a Huawei Cloud account and complete real-name authentication.

Step 1 Log in to the Huawei Cloud management console.

Step 2 Choose **Products > Management & Governance > Optimization Advisor (OA)**.

Step 3 Click **Enable**.

 **NOTE**

The service can be enabled for free during the OBT. After the service is put into commercial use, you need to purchase a support plan to enable it.

----End

2 Using Automatic Check

Step 1 Go to the **Overview** page of OA and click **Check**.

----End

3 Viewing Historical Records

You can view the records of the last check and the corresponding check results.

4 Downloading a Report

Step 1 On the **Overview** page, click **Download** to save the check result to the local PC.

----End

5 Updating the Check Result of a Single Check Item

Step 1 On the pages that display the check results in each product dimension, you can update the check result of a single check item and download the check details of the check item.

----End

6 Disabling the Service

After OA is enabled, you can log in to the console and disable it if you do not need it. Note: Disabling the service is irreversible. Once you disable the service, your historical check results and operation records cannot be restored. Exercise caution when performing this operation.

- Step 1** Log in to the Huawei Cloud management console.
- Step 2** Choose **Products > Management & Governance > Optimization Advisor (OA)**.
- Step 3** On the OA console, choose **Settings > Permissions**, and click **Disable** in the upper right corner.
