1 General

1.1 Can a Partner Support Plan Be Shared Among Multiple Users?

A HUAWEI CLOUD partner support plan only provides support services for a single partner account, under which the partner can create multiple log-in accounts. The number of log-in accounts used to submit service tickets is not limited.

1.2 What Does a Partner Support Plan Provide?

HUAWEI CLOUD partner support plans help you solve the following problems:

- Errors and faults of HUAWEI CLOUD products
- Service or product unavailability
- Service errors and irregular exceptions that affect service availability
- Services or products not operating as they are supposed to be
- Large-scale network outage
- Regional problems that affect multiple users
- Quota adjustment
- Accounting dispute

1.3 How Do I Configure Account Permissions to Grant O&M Personnel Only the Ticket Permission but Not Other Management Permissions of the Partner Account?

You have a HUAWEI CLOUD partner support plan and want to set different access permissions for organization members under the partner to achieve permission control for different employees. For example, you grant O&M personnel only the ticket permission but not other management permissions of the partner account.

 **NOTE**

All organization members created under a partner account have the permission to submit service tickets. You can create user accounts for O&M personnel and assign minimum permissions to them according to needs of different roles.

Procedure

- Step 1** Log in to the Partner Center as an administrator.
- Step 2** Create a role (such as **operation_engineer**), and assign minimum permissions (for example, only the permission to view the account balance on the Overview page) to the role.
- Step 3** Create an organization member and assign the role to the member.

For details about how to create an organization member, see [Adding a Member](#).

HUAWEI CLOUD provides various support channels. It is recommended that you [submit service tickets](#) on the partner management console and then accelerate problem solving through other channels.

For details, see [Support Modes](#).

1.5 How Long Does It Take to Get a Response?

HUAWEI CLOUD provides 24/7 technical support services. Time of the first response to the customer case request is related to the subscribed partner support plan level and case severity. For details, see [SLA](#).

1.6 How Long Does It Take to Solve My Problem?

How long a problem can be resolved depends on the problem complexity. HUAWEI CLOUD will cooperate with you to solve your problems as soon as possible.
