1 Introduction

Enterprise Self-Service Management (ESM) provides capabilities such as tenant management, quota management, metering management, and panorama visualization. It also allows you to manage operations of your Huawei dedicated cloud sites on your own and offers a broad set of dashboards you can use to gain comprehensive, multi-dimensional data insights into the status and health of those sites.

This document describes how to get started with ESM in view of tenant management and visualized dashboards. You can use this service based on site requirements.

2 Tenant Management

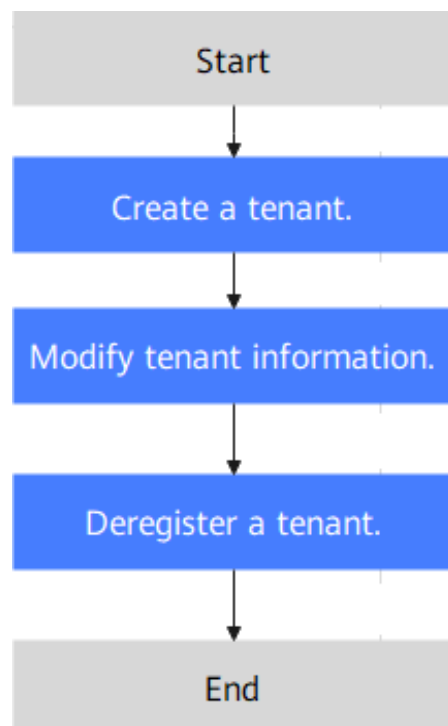

2.1 Prerequisites

A Huawei Cloud account or IAM user that has passed real-name authentication is available.

2.2 Operation Process

[This figure](#) shows the tenant management process.

Figure 2-1 operation process

2.3 Creating a Tenant

You can create one or more tenants.

Procedure

- Step 1** Choose **Organization** from the main menu. The **Tenant Management** page is displayed by default.
- Step 2** On the **Tenants** page, click **Create Tenant**.
- Step 3** Set the parameters as described in [Table 2-1](#).

Table 2-1 Descriptions of key parameters

Parameter	Description
Site	Select a site where the tenant is to be created.
Tenant Name	Enter a tenant name.
Password	Enter a tenant password.
Confirm Password	Enter the tenant password again.
Description	Enter a description about the tenant.

- Step 4** Click **OK**.
- End

2.4 Modifying Information About a Tenant

You can modify the description about a created tenant.

Procedure

- Step 1** Choose **Organization** from the main menu. The **Tenant Management** page is displayed by default.
- Step 2** Locate the row that contains a tenant and click **Modify** in the **Operation** column.
- Step 3** Change the tenant description.
- Step 4** Click **OK**.
- End

2.5 Pre-deregistering a Tenant

You can pre-deregister a tenant.

Prerequisites

- You have logged in to ESM as an administrator.
- A site has connected to Resource Operation Service (ROS).

Procedure

- Step 1** Choose **Organization** from the main menu. The **Tenant Management** page is displayed by default.
 - Step 2** On the **Tenants** page, locate the row that contains the tenant to be deregistered and choose **More > Pre-deregister**.
 - Step 3** In the displayed dialog box, click **OK**.
 - Step 4** On the **Pre-deregistrations** tab page that is displayed by default, verify that the status of the tenant changes to **Pre-deregistered**
- End

3 Viewing Dashboards

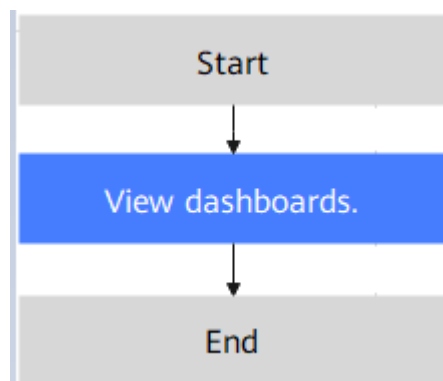

3.1 Prerequisites

A Huawei Cloud account or IAM user that has passed real-name authentication is available.

3.2 Operation Process

[This figure](#) shows how to use dashboards.

Figure 3-1 Operation process

3.3 Dashboards

Step 1 Choose **Visualization** from the main menu.

Step 2 On the **Operation** page, select a dashboard to access it. The statistics included in dashboards can be used for decision-making.

View the dashboards described in [Operations Dashboards](#).

----End
